<b>A</b>			
Abdominal actinomycosis: a report of three cases	301	Cachexia, Chronic erosive gastritis resulting in	271
Abdominal fat assessed by computed tomography: sex difference in distribution	189	Caecal carcinoma in the elderly, Sonography as an aid to diagnosis of	669
Abscess, Splenic: a review with the value of ultrasound	661	Calcification in two infants with congenital cardiac lesions, Massive pulmonary	381
Abscesses, Indium-111 tropolone leucocyte scanning in the detection of intra-abdominal	593	Cancer, A brief history of	597
Accuracy of the plain abdominal radiograph in assessing colonic faecal contamination	73	Cancer, A simple numerical discriminant in the follow-up of lung	251
Actinomycosis, Abdominal: a report of three cases	301	Cancer of the breast, Microcalcification and its relationship to: experience in a screening clinic	193
Acute pancreatitis following endoscopic retrograde cholangiopancreatography	543	Cancer, Prospects for the prevention of	609
Adrenal disease, Computed tomography in	39	Carinoma in the elderly, Sonography as an aid to diagnosis of caecal	669
Age in Hodgkin's disease, The prognostic significance of: examination of 1500 patients	503	Carinoma of the cervix uteri, Optimal time-dose relationships in high dose-rate intracavitory irradiation for, using time, dose and fractionation values	237
Age-stratified study, Radiographic examination of the lumbosacral spine: an	321	Carinoma of the colon, Necrotic	297
Anterior spinal fusion, Retroperitoneal fibrosis after	331	Carinoma of the lung in the Beijing region of China, The results of radiation therapy of advanced	117
Aorto-caval fistulae, Spontaneous	683	Carinoma of the oesophagus, The results of high-energy electron therapy in, compared with telecobalt therapy	113
Aorto-enteric fistulae: the role of radiology	65	Carcinoma, Portal scanning for liver metastases in colorectal	657
Aortography, A comparative study of two non-ionic contrast media, iopamidol and metrizamide, in translumbar	87	Carcinoma, Tamoxifen in the treatment of male breast	625
Aortography, Femoral artery flow and pain during lumbar: comparison of ionic and non-ionic contrast media	79	Cellular subtypes in nodular sclerosing Hodgkin's disease, The prognostic significance of: an analysis of 271 non-laparotomised cases	497
Arthrography of the temporomandibular joint: a simple technique	147	Cerebellar tonsils, Autotomography with metrizamide myelography: an aid to visualisation of the crano-cervical junction and	401
Atlas, Fracture of the anterior arch of the: the result of direct oropharyngeal trauma	157	Cervix uteri, Optimal time-dose relationships in high dose-rate intracavitory irradiation for carcinoma of the, using time, dose and fractionation values	237
Autotomography with metrizamide myelography: an aid to visualisation of the crano-cervical junction and cerebellar tonsils	401	Chemotherapy and radiotherapy in advanced head and neck cancer, Sequential	463
Avascular necrosis of bone in patients treated for Hodgkin's disease, The problem of	231	Chest radiographic patterns following kerosene poisoning in Ghanaian children	643
<b>B</b>			
Barium enema, Diagnosis of carcinoma of the colon by	423	Children, Chest radiographic patterns following kerosene poisoning in Ghanaian	643
Beckwith-Wiedemann syndrome: role of ultrasound in its management	313	Children, The echography of pelvi-ureteric junction obstruction in	547
Biliary obstruction, The radiological management of malignant	143	Children, The radiology of renal stones in	59
Bladder cancer, Radiation treatment planning for: a comparison of cystogram localisation with computed tomography	103	Children, The small bowel enema in: a description of a technique	287
Blunt abdominal trauma, The diagnostic impact of computed tomography in	261	Chordoma in young adults, Sacrococcygeal	327
Bochdalek's hernia with obstruction, Late-onset: radiographic spectrum of presentation	267	Christmas disease, Renal papillary necrosis in haemophilia and	201
Bone metastases from squamous-cell carcinoma of the larynx	447	Chronic erosive gastritis resulting in cachexia	271
Breast carcinoma, Tamoxifen in the treatment of male	625	Chronic fistulating osteomyelitis in sickle-cell anaemia, Sinography in	347
Breast, Microcalcification and its relationship to cancer of the: experience in a screening clinic	193	Clinical experience with nuclear magnetic resonance, The Hammersmith	13
Breast screening programme, Mammographic and pathological correlations in a	529	Clinical prospects for nuclear magnetic resonance	3
Brief history of cancer	597	Clinicopathological study, Gallium scanning in the diagnosis of hepatocellular carcinoma: a	139
Bronchospasm, Contrast media and: a study with iopamidol	227	Colon cleansing, A new oral bowel evacuant (Picolax) for	75
		Colon, Diagnosis of carcinoma of the, by barium enema	423

## SUBJECT INDEX

	Page	Page	
Colon, Necrotic carcinoma of the	297	Diagnosis of carcinoma of the colon by barium enema	423
Colonic faecal contamination, The accuracy of the plain abdominal radiograph in assessing	73	Diagnostic impact of computed tomography in blunt abdominal trauma	261
Colorectal carcinoma, Portal scanning for liver metastases in	657	Disasters, Immediate radiological management of	441
Comparative study of the sodium salts of iodamide and iothalamate in clinical urography	353	Distended neonate	367
Comparative study of two non-ionic contrast media, iopamidol and metrizamide, in translumbar aortography	87	Do plain films of the chest and abdomen have a role in the diagnosis of acute pancreatitis?	133
Comparison of conventional radiographic imaging and computed tomography in malignant disease of the paranasal sinuses and the post-nasal space	161	Double-contrast barium enema, A comparison of mannitol and magnesium citrate preparations for	309
Comparison of mannitol and magnesium citrate preparations for double-contrast barium enema	309	Double-contrast barium enemas, The role of decubitus films in	681
Computed tomographic findings in primary mandibular osteosarcoma	153	Double-contrast barium meal: a correlation with endoscopy	121
Computed tomography, Abdominal fat assessed by: sex difference in distribution	189	Duodenum in cystic fibrosis, Radiographic abnormalities of the	573
Computed tomography, Evaluation of peripartum strokes by	633		
Computed tomography in adrenal disease	39		
Computed tomography in blunt abdominal trauma, The diagnostic impact of	261		
Computed tomography in malignant disease of the paranasal sinuses and the post-nasal space, A comparison of conventional radiographic imaging and	161		
Computed tomography into radiotherapy planning and treatment, A method for integrating	99		
Computed tomography of the heart: initial experience	693		
Computed tomography, Radiation treatment planning for bladder cancer: a comparison of cystogram localisation with	103		
Computed tomography-guided needle biopsy in an oncology service, The role of	255		
Computers: Why are radiologists in the UK not using computers in their departments?	215		
Congenital cardiac lesions, Massive pulmonary calcification in two infants with	381		
Contrast media and bronchospasm: a study with iopamidol	227		
Contrast media, Eosinophilia caused by iodinated radiographic	639		
Contrast media, Femoral artery flow and pain during lumbar aortography: comparison of ionic and non-ionic	79		
Contrast media, iopamidol and metrizamide, in translumbar aortography, A comparative study of two non-ionic	87		
Contrast media, The new low-osmolar: a simple guide	221		
Crano-cervical junction and cerebellar tonsils, Autotomography with metrizamide myelography: an aid to visualisation of the	401		
Craniopharyngioma, The management of	401		
Cystic fibrosis, Radiographic abnormalities of the duodenum in	573		
Cystogram localisation with computed tomography, Radiation treatment planning for bladder cancer: a comparison of	103		
<b>D</b>			
Design, dynamics and deduction: a radiologist looks at the human lung	479	Haemoglobin levels in 1103 patients with Hodgkin's disease, The presentation	491
Diagnosis and staging of neuroblastoma	523	Haemophilia and Christmas disease, Renal papillary necrosis in	201
		Half body radiation in plasma cell myeloma	507
<b>E</b>			
Echography of pelvi-ureteric junction obstruction in children		547	
Embolisation of hypernephromas: a simple technique using ethanol		689	
Endoscopic retrograde cholangiopancreatogram and pancreatogram in chronic liver disease		417	
Endoscopic retrograde cholangiopancreatography, Acute pancreatitis following		543	
Endoscopy, The double-contrast barium meal: a correlation with		121	
Eosinophilia caused by iodinated radiographic contrast media		639	
Evaluation of peripartum strokes by computed tomography		633	
<b>F</b>			
Familial vanishing limbs: four generations of idiopathic multicentric osteolysis		585	
Femoral artery flow and pain during lumbar aortography: comparison of ionic and non-ionic contrast media		79	
Fistulae, Aorto-enteric: the role of radiology		65	
Flexion and extension radiography of the lumbar spine: a comparison with lumbar discography		405	
Fracture of the anterior arch of the atlas: the result of direct oropharyngeal trauma		157	
<b>G</b>			
Gall-bladder neck, Surgical implications of stone impaction in the, with compression of the common hepatic duct (Mirizzi's syndrome)		651	
Gallium scanning in the diagnosis of hepatocellular carcinoma: a clinicopathological study of 45 patients		139	
Gastric emptying, Technetium-99m labelled bran: a new agent for measuring		275	
Gastric reduction surgery for obesity, The radiology of		279	
Gastrointestinal tract, The use of ioxaglate in the paediatric: a report of 25 cases		579	
<b>H</b>			
Haemoglobin levels in 1103 patients with Hodgkin's disease, The presentation		491	
Haemophilia and Christmas disease, Renal papillary necrosis in		201	
Half body radiation in plasma cell myeloma		507	

## SUBJECT INDEX

	Page		Page
Head and neck cancer, Sequential chemotherapy and radiotherapy in advanced	463	L	
Head and neck cancer, Treatment of advanced, using synchronous therapy with methotrexate and irradiation	459	Larynx, Bone metastases from squamous-cell carcinoma of the	447
Heart, Computed tomography of the: initial experience	693	Late-onset Bochdalek's hernia with obstruction: radiographic spectrum of presentation	267
Hepatocellular carcinoma, Gallium scanning in the diagnosis of: a clinicopathological study of 45 patients	139	Liver after surgical removal of hydatid cyst, The radiological appearances of the	565
High-energy electron therapy in carcinoma of the oesophagus compared with telecobalt therapy, The results of	113	Liver disease, The endoscopic retrograde cholangiogram and pancreatogram in chronic	417
Hodgkin's disease, Overwhelming post-splenectomy infection in: pathogenesis and prevention	95	Liver metastases in colorectal carcinoma, Portal scanning for	657
Hodgkin's disease, The presentation haemoglobin level in 1103 patients with	491	Liver, The radiological appearances of hydatid disease of the	555
Hodgkin's disease, The problem of avascular necrosis of bone in patients treated for	231	Lumbar discography, Flexion and extension radiography of the lumbar spine: a comparison with	405
Hodgkin's disease, The prognostic significance of age in: examination of 1500 patients	503	Lumbosacral spine, Radiographic examination of the: an 'age-stratified' study	321
Hodgkin's disease, The prognostic significance of cellular subtypes in nodular sclerosing: an analysis of 271 non-laparotomised cases	497	Lung cancer, A simple numerical discriminant in the follow-up of	251
Hydatid cyst, The radiological appearances of the liver after surgical removal of	565	Lung, Design, dynamics and deduction: a radiologist looks at the human	479
Hydatid disease of the liver, The radiological appearances of	555	Lung, The results of radiation therapy of advanced carcinoma of the, in the Beijing region of China	117
Hypernephromas, Embolisation of: a simple technique using ethanol	689		
I			
Identification from radiographs	589	M	
Idiopathic multicentric osteolysis, Familial vanishing limbs: four generations of	585	Magnesium citrate preparations for double-contrast barium enema, A comparison of mannitol and	309
Immediate radiological management of disasters	441	Male breast carcinoma, Tamoxifen in the treatment of	625
Impact of new imaging systems on paediatric radiology	361	Malignant biliary obstruction, The radiological management of	143
Incidence of simple renal cyst by computed tomography	437	Malignant disease of the paranasal sinuses and the post-nasal space, A comparison of conventional radiographic imaging and computed tomography in	161
Indium-111 tropolonate leucocyte scanning in the detection of intra-abdominal abscesses	593	Malignant histiocytosis and ulcerative jejunitis of the small intestine	291
Infantile hypertrophic pyloric stenosis: a fresh approach to the diagnosis	51	Malignant tumours of the nasopharynx: retrospective review of 74 cases	451
Infants with congenital cardiac lesions, Massive pulmonary calcification in two	381	Mammographic and pathological correlations in a breast screening programme	529
Infective complications of splenic trauma	91	Mammographic features of infiltrating epithelioma	433
Infiltrating epithelioma, The mammographic features of	433	Management of craniopharyngioma	629
Intravenous urography in young women with recurrent urinary tract infections, Unnecessary	551	Mandibular osteosarcoma, Computed tomographic findings in primary	153
Iodamide and iothalamate in clinical urography, Comparative study of the sodium salts of	353	Mannitol and magnesium citrate preparations for double-contrast barium enema, A comparison of	309
Iodinated radiographic contrast media, Eosinophilia caused by	639	Massive pulmonary calcification in two infants with congenital cardiac lesions	381
Iopamidol, Contrast media and bronchospasm: a study with	227	Metastases, Multiple daily fractions of radiation in the palliation of pain from bone	245
Iothalamate in clinical urography, Comparative study of the sodium salts of iodamide and	353	Method for integrating computed tomography into radiotherapy planning and treatment	99
Ioxaglate in the paediatric gastrointestinal tract, The use of: a report of 25 cases	579	Methotrexate and irradiation, Treatment of advanced head and neck cancer using synchronous therapy with	459
Irradiation, Treatment of advanced head and neck cancer using synchronous therapy with methotrexate and	459	Microcalcification and its relationship to cancer of the breast: experience in a screening clinic	193
K			
Kerosene poisoning in Ghanaian children, Chest radiographic patterns following	643	Mirizzi's syndrome: Surgical implications of stone impaction in the gall-bladder neck with compression of the common hepatic duct	651
		Mitral-valve prolapse, Skeletal abnormalities in	207
		Multiple daily fractions of radiation in the palliation of pain from bone metastases	245
